

Hierarchy Navigation

Page Tree

The page tree provides a tree view for navigating pages within the site hierarchy (as shown in the Navigator panel to the left). For more information, see [pa getree2 macro](#).

Hierarchy Navigator

The [menulink macro](#) and [compound-menuitem macro](#) provide hierarchical navigation links that can be used anywhere.

For example:

```
{table:align=center}
{tr}
  {td:colspan=5|align=center}
    {compound-menuitem:parent|icon=navigate_up|flat=true|imginside=true|tooltip=Parent page}
  {td}
{tr}
{tr}
  {td}{compound-menuitem:first|icon=navigate_beginning|flat=true|imginside=true|tooltip=First page}{td}
  {td}{compound-menuitem:prev|icon=navigate_left|flat=true|imginside=true|tooltip=Previous page}{td}
  {td}{compound-menuitem:home|icon=home|flat=true|imginside=true|tooltip=Home page}{td}
  {td}{compound-menuitem:next|icon=navigate_right|flat=true|imginside=true|tooltip=Next Page}{td}
  {td}{compound-menuitem:last|icon=navigate_end|flat=true|imginside=true|tooltip=Last Page}{td}
{tr}
{tr}
  {td:colspan=5|align=center}
    {compound-menuitem:firstchild|icon=navigate_down|flat=true|imginside=true|tooltip=Child page}
  {td}
{tr}
{table}
```

Which results in:
