

# fav-menu macro

Allows you to create a menu that uses the favourite icon (A star). Providing an visual indicator if the space or page is a favourite.

Note: Available in Builder 3.4.0 or above.

## Example Usage

```
{fav-menu:class=shrink-width}
  {compound-menuitem:favourite|caption=%Add% this %Page% to favourites}
  {compound-menuitem:favouritespace|caption=%Add% this space to favourites}
{fav-menu}
```
