Early Access 4.0.1

Our Early Access Programme (EAP) allows interested parties to try out the latest development releases of Theme Builder, prior to the final stable release. As such, **you should not use EAP releases in production environments** - they may contain bugs or partially complete functionality.

Builder 4.0.1 is a bugfix release to add support for confluence 3.1.1 and fix theme-admin permissions tab issues

Builder 4.0.1-M1

- Add support for confluence 3.1.1 global settings
- Prevent atl_token being applied to editinword menulinks
- Ensure theme admin uses the correct permissions tab
