

CSS Replacements

In addition to the [Confluence Colour Properties](#) there are a number of other replacements available in the css tab:

Replacment	Description
%SPACEKEY%	The space key
%LAYOUTID%	The current layout id
%CONTEXTPATH%	The context path for the confluence install
%ICONPATH%	The path to the builder icon resources
LAYOUTID::resource.ext	The path to the resource.ext file attached to the LAYOUTID layout
%CURRENT%::resource.ext	The path to the resource.ext file attached to the current layout
%PARENT%::resource.ext	The path to the resource.ext file attached to the parent layout
